

CARLO CAIRE

Graphic designer and creative director. I design **visual identities, cover artwork, digital communication and products** for record labels, brands and companies.

crlcaire@gmail.com
+39 340 456 4755 · Milan

ABOUT

I am a designer based in Milan. Since 2024 I have led graphic design and creative direction for Kayros Music, a record label under Universal Music. Since 2026 I have taught Graphic Design at Ferrari Fashion School in Milan.

 @kayrosmusicofficial  @ferrarifashionschool

I have worked as a freelancer since 2019, designing logos, corporate identities and campaigns for companies and private clients. With Grow Events I organise music and cultural events, handling their concept and graphics.

 @grow.events  @spaziocharlie  @ccreative__art

Master's degree in Product and Event Design from the University of Genoa; Master in Sustainable Architecture and Design at Mario Cucinella's School of Sustainability.

 @sos_schoolofsustainability  @unigenova

Available for in-house, part-time or project-based work in Milan.

WHAT I CAN DO FOR YOUR TEAM

Brand identity and logos

From the logo to the full corporate identity

Art direction and cover artwork

Music, campaigns, key visuals

Social and digital ads

Stories, posts, banners, seasonal promos

Packaging and labels

Print-ready artwork

Print and events

Roll-ups, panels, exhibition set-ups, posters

Product design

From concept to prototype, technical drawings

Mockups and 3D rendering

Products and spaces before production

Corporate photo and video

In collaboration with photographers and videomakers Anthony Sartori and Alessandro Bonaldo

 @realsartosky  @alebonaldo_studio

TOOLS

Illustrator · Photoshop · InDesign

Graphics, photo editing, layout

Premiere

Video editing

Gemini · Claude

AI for research, concepts and workflows

Rhinoceros · KeyShot · Twinmotion

3D and rendering

RECOGNITION

Winner, Archiproducts Design Awards 2023

Strampelli Collection

Genova Design Week 2025 and 2026

BLOOM and ECLITTICA exhibited

ADI Design Museum, Milan

Inhabit Sound exhibited, 2023

Jury Prize, FAV Montpellier 2018

"Urban Living Room" installation

LANGUAGES

Italian · English · French

KAYROS MUSIC

A visual identity for every artist, within a single label.

kayrosmusic.it

CLIENT

Kayros Music, Kayrós ETS community. In partnership with Universal Music Italia since 2024

PERIOD

March 2024 – present

ROLE

Graphic designer and creative direction

OUTPUT

Single and EP covers, social visuals, video scripts

THE CONTEXT

Kayros Music is a record label founded on an idea by Don Claudio Burgio to use music as a tool for education, expression and personal growth within the Kayrós ETS community. In 2024 it began a partnership with Universal Music Italia, which broadened the creative possibilities of the project and strengthened its visibility nationwide.

HOW I WORK

I start from the track and the artist, then choose the language: reworked photography, collage, illustration, digital painting or pure typography.

DIGITAL SUPPORT

Beyond the cover, I support the artist through the release: visuals in multiple formats, social stories and video scripts, working alongside videomakers and photographers.

INHABIT SOUND

Translating the sounds of Milan into signs. The graphics for an acoustic pavilion exhibited at the ADI Design Museum.

CLIENTS

School of Sustainability x MINI – BMW Group

YEAR

2023

ROLE

Team project; sound drawing and visuals

OUTPUT

Posters, graphic sound legend, exhibition panels

THE BRIEF

Master thesis in Sustainable Architecture and Design, supervised by Renzo Vitale, Sound Creative Director at BMW Group: raising awareness of acoustic comfort in the city.

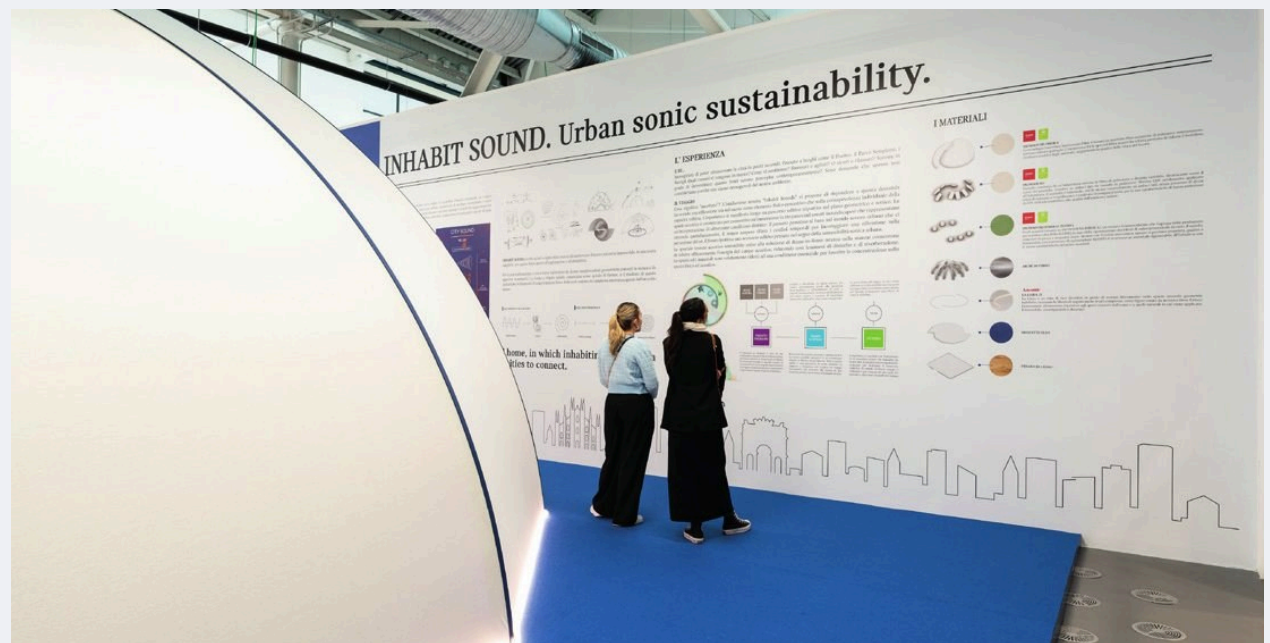

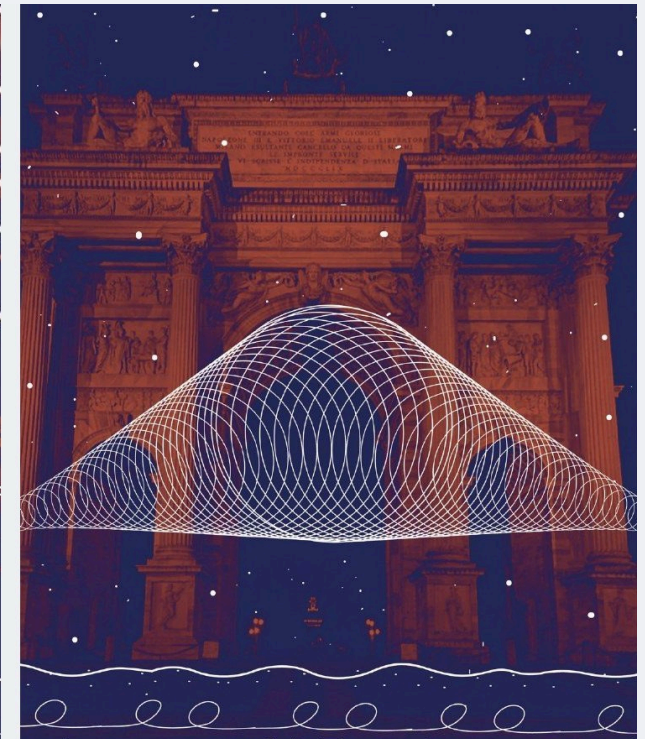

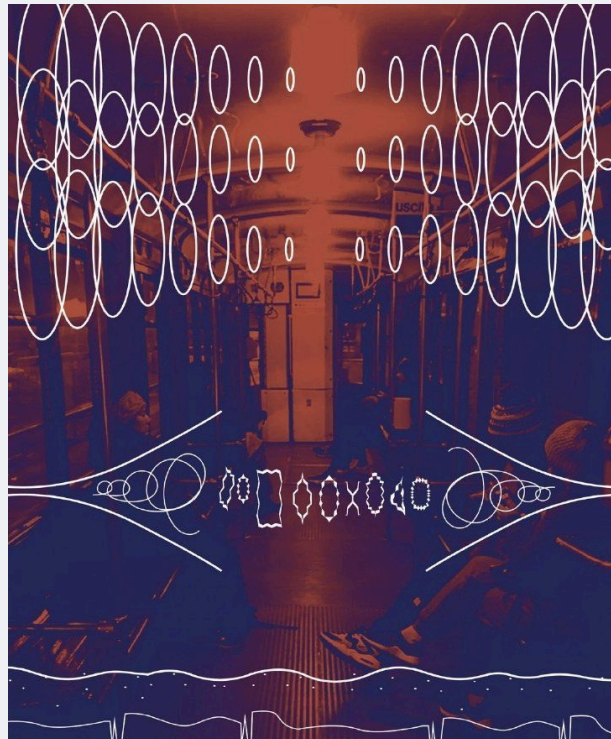

THE GRAPHIC SOLUTION

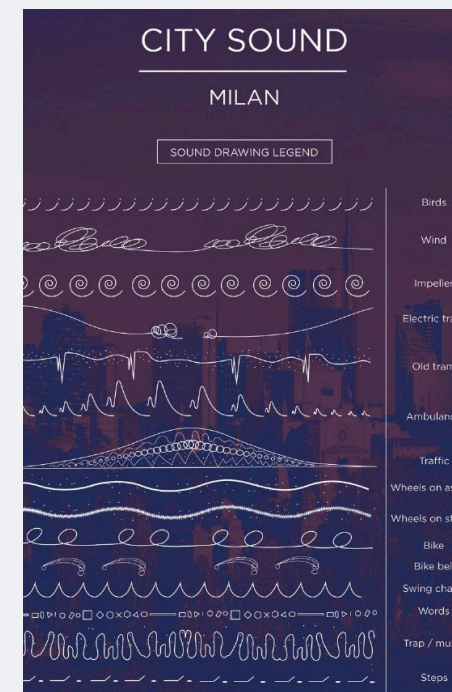

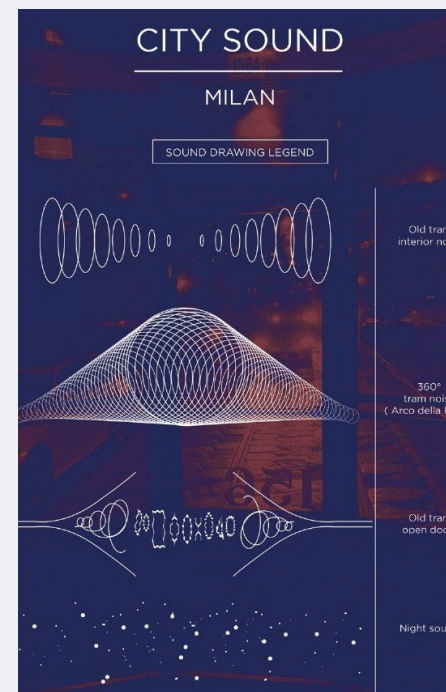

“City Sound Milan” is a legend that gives every urban sound its own sign, from traffic to church bells. Waves, spirals and rhythms become posters and panels along the path through the pavilion.

THE PAVILION

A double-spiral sound path plays the sounds of the city today and in the future. At its centre, an acoustic-comfort chamber fitted with Caimi panels. The pavilion was exhibited at the ADI Design Museum in Milan.

LOGOS

BRAND DESIGN

Brand design shapes how a company presents itself: name, logo, colours, typefaces and tone of voice. A consistent identity makes a company recognisable at a glance and builds trust before a single word is read.

A LOGO THAT SPEAKS FOR THE COMPANY

The logo is the starting point. A good mark comes from listening to the company and expresses its values and craft in a simple sign that works on a business card and on a shop sign, in print and on screen.

GIRICASA · REAL ESTATE

IL BARETTO · FOOD & DRINK

LUDOVICO BALBO · ACCOUNTANT

NICOLÒ BALBO · LANDSCAPE GARDENER

LE DELIZIE DI CARMEN · RESTAURANT

AURIVA · TAGGIASCA OLIVE OIL

BURATTO · PAN PIZZA

CHEF IN PASTA

CORPORATE IDENTITY

Corporate identity concepts for the logos designed for the following clients: GiriCasa, Spirito, AuRiva, Re+, Cave Littardi, LBPLAN and Chef in Pasta.

SOCIAL & ADS

DIGITAL · SMARTPHONE AND WEB

Campaigns designed for the screen: social stories and posts, banners and content for websites and e-commerce. Seasonal promotions, product launches, online sales. Vertical formats built for scrolling, with a clear message and a single call to action per piece.

PRINT · PHYSICAL MEDIA

The same campaign carried over to roll-ups, panels, posters and materials for trade fairs and events. Layouts readable from a distance, able to explain even a technical product in a few points, consistent with the digital communication.

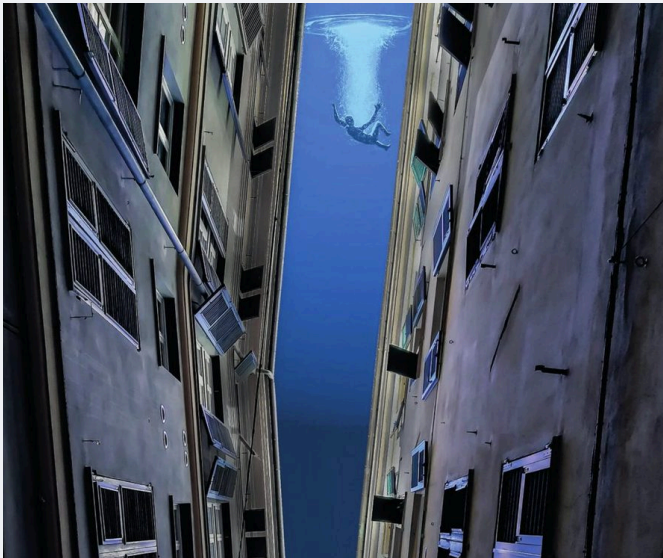

CCREATIVE ART

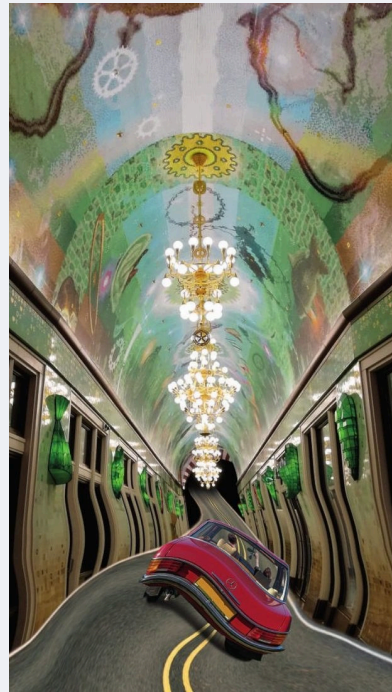

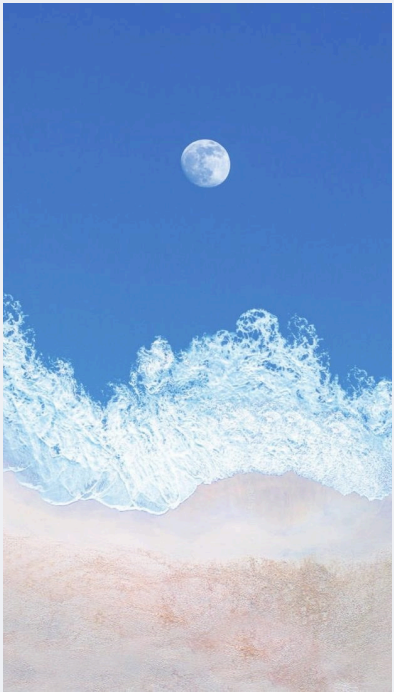

THE IDEA

Digital collages that take everyday objects and real places out of context and recompose them: a cup of coffee becomes a desert, a vinyl record a running track, a focaccia the moon.

WHY IT IS HERE

It is the lab where I practise photomontage, colour grading and post-production in Photoshop. The same techniques go into my covers and campaigns every day.

3D, PRODUCT AND SPACE

Objects designed and built up to the prototype, then exhibited at Genova Design Week. For each project I also handle the visual side: technical drawings, flyers and exhibition communication.

SOFTWARE

Rhinoceros, KeyShot, Twinmotion

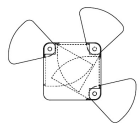

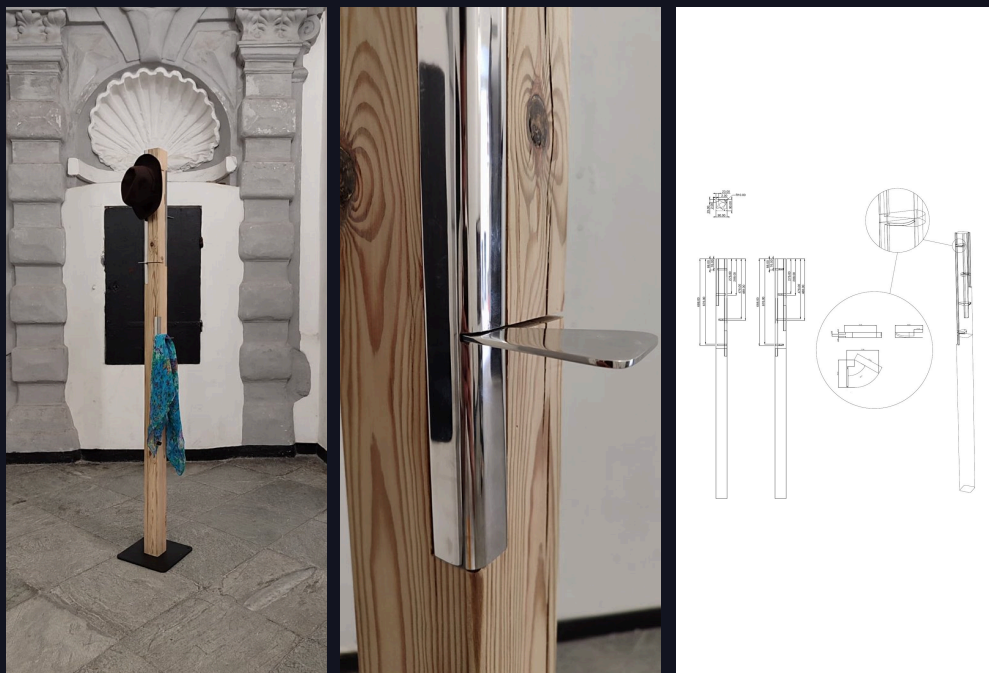

EXHIBITIONS

Genova Design Week 2025 (BLOOM) and 2026 (ECLITTICA)

BLOOM

COAT STAND · GENOVA DESIGN WEEK 2025 · WITH LORENZO FERRARIS

A minimal coat stand combining wood and steel. The vertical pole recalls a tree trunk and gives stability; the hooks fan open like leaves in spring. Closed, BLOOM returns to a pure line and becomes a silent reminder of deforestation.

Top view · The steel hooks are recessed into the wood: they rotate open and, when closed, disappear into the outline of the pole.

ECLITTICA

STEEL LAMP · GENOVA DESIGN WEEK 2026

A steel lamp inspired by the apparent orbit of the Sun around the Earth. Two triangles and a rod hold the light sphere, which comes to life through a gentle 180-degree movement. Like the Sun rising and setting, it brings a natural, silent rhythm into the space: an invitation to slow down and change perspective.

180° movement

The arm pivots and the sphere travels through space, from sunrise to sunset.

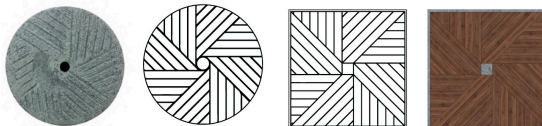

PRODUCT AND RENDERING

From concept to 3D model: furniture collections for wood companies and technical renderings for industrial products.

STRAMPELLI COLLECTION

MARDEGAN LEGNO · SCHOOL OF SUSTAINABILITY · 2023

A capsule collection in wood and stone inspired by agronomist Nazareno Strampelli, who crossed wheat varieties to create better ones. The woods are combined just like his crossbreeds.

WINNER
ARCHIPRODUCTS
DESIGN AWARDS
2023

LADAR MK3

OFFSHORE MONITORING · MARINE TECHNOLOGY

3D modelling and rendering of the LADAR MK3 camera for marine monitoring: product views and an exploded view of the components.
